OBJECTIVE

A results-driven AI/ML Engineer with hands-on experience in data preprocessing, model training, and deployment. Proficient in TensorFlow, Scikit-learn, and advanced AI frameworks. Demonstrated success in building and fine-tuning large language models (LLMs), developing AI agents, and automating data pipelines. Experienced in applying AI/ML to real-world challenges, including NLP and predictive analytics. A collaborative team player with a strong learning mindset and a passion for emerging AI technologies.

TECHNICAL SKILLS

- **Programming Languages:** Python (Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Matplotlib), SQL
 - **Generative AI & AI Model Development:** LLM Training, Building AI Agents, Prompt Engineering, Generative Models
 - **Machine Learning:** Supervised/Unsupervised Learning, Classification, Clustering
 - **Deep Learning & NLP:** TensorFlow, PyTorch, Transformers, LLMs, LangChain, Text Preprocessing
 - **Web Development:** HTML, CSS, Django, FastAPI, REST APIs
 - **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn
 - **Version Control:** Git, GitHub
 - **Databases:** SQL
 - **Operating Systems:** Windows, Linux
-

PROFESSIONAL EXPERIENCE

Finsocial Digital Systems

AIML Engineer Intern | Nov 2024 – June 2025

- Collected, cleaned, and preprocessed datasets for machine learning models.
- Built, trained, and evaluated models using frameworks like TensorFlow and Scikit-learn.
- Developed AI agents and integrated them into functional applications.
- Fine-tuned large language models (LLMs) for specific use cases.
- Automated data pipelines and created visualizations using Python libraries.
- Conducted model optimization through hyperparameter tuning and performance analysis.
- Collaborated with teams and documented processes for reproducibility.
- Developed and deployed chatbots with LangChain, integrating LLMs for customer interaction and task automation.
- Continuously upskilled in emerging AI/ML trends and tools.

OTHER EXPERIENCE:

FIS Global, Pune

Technical Support Engineer | Nov 2023 – Oct 2024

- Provide technical assistance for software and network issues, resolving technical problems with a customer-focused approach.
- Assisted in the deployment and configuration of IVR systems, ensuring seamless integration with backend systems and improving customer interaction workflows.
- Collaborated with AI and voice recognition teams to integrate Natural Language Processing (NLP) models into the IVR system for enhanced voice-based customer service.

DISYS India Pvt. Ltd., Pune

Technical Recruiter | Apr 2023 – Oct 2023

- Leveraged data sourcing and analysis to match candidates with client requirements, showcasing strong analytical and decision-making skills.

EDUCATION

- **Bachelor of Engineering (B.E.) - Information Technology**
Sandip Institute of Technology and Research Center, Nashik | Graduated: July 2022
CGPA: 8.01
- **Higher Secondary Certificate (Class 12th)**
RYK College of Science, Nashik | Completed: May 2018
- **Secondary School Certificate (Class 10th)**
St. Francis High School, Nashik | Completed: May 2016

PROJECTS

Body Weight and Measurement Analysis using Image Processing

- Developed a Python-based image processing model to analyze body weight and measurements from human body images.
- Applied image segmentation techniques and extracted relevant features using OpenCV.

AI Resume Matcher

Streamlit, Python, scikit-learn, NLP

- Built a web app to match resumes with job descriptions using TF-IDF and cosine similarity.
- Enabled multi-format support (PDF, DOCX) with real-time match scoring via Streamlit.
- Applied NLP preprocessing and stop word filtering for improved accuracy.
- Ensured secure file handling with automated cleanup.

CERTIFICATIONS

- Python for Data Science – Udemy
- Machine Learning Specialization – Coursera (Andrew Ng)
- HTML & CSS Certification
- Certification in Python.

SOFT SKILLS

- Strong analytical and problem-solving skills.
- Proactive and quick learner, eager to explore new tools and technologies.
- Effective communicator, able to collaborate well within teams.
